

## Late August 2020 in the garden

Sunday, 23 August 2020 13:01 - Last Updated Friday, 04 September 2020 10:05

---

The height of the growing season. Visitors include Tiger Swallowtails, Black Swallowtails, Monarchs, Darning Needles, Dragon Flies, Damsel Flies, Praying Mantis, Warblers, Goldfinches, Robins, Cardinals, Mocking Birds, Catbirds, Blue Jays, Hummingbirds etc....

A shout out to fellow gardeners across the country in Arcata, California. Here is a sample of some of their hot pepper varieties for 2020:

Dr. G's Mumbo Sauce@.. Dracula, Lhasa, Aji Colorado, Aji Amarillo

And now from the beautiful Hilltop area of Jersey City...Little Jade Napa Cabbage. It started with Pak Choy and now working through Asian Cuisine greens

## Late August 2020 in the garden

---

These were started in an Aerogarden in February of 2020 and still going strong. Tiny and tasty but the seeds pack a punch.

My little crazy ass Jersey City Garden of 13' x 25'. Haven for pollinators and marauding skunks, racoons, squirrels, ground hogs, possums, etc...
