

Many plants were moved inside this year. An additional Gro Lite was purchased to help and this worked out very well. The morning light comes in from the east and south. It's pretty intense as there are no leaves on the trees... Plants include: Begonias, Christmas Cactus, Vincas, Pinks, Hibiscus, Umbrella Palm, Chili Pepper, Bamboo, etc.

Here's another Hibiscus beauty!

But it's time for seed catalogs and starting things inside...

There are Toy Chovy (Baby Pak Choy) starts in one Aerogarden and Golden Cherry tomatoes and Cilantro in the Sprout Aerogardens.

## Winter 2022 - getting started for Spring
