

## Ahhh Summer

Tuesday, 07 June 2022 17:17 - Last Updated Tuesday, 07 June 2022 17:57

---

Summer arrived early here. We've already had temperatures reach the 90's. (Not so good for sprouts and Pak Choi is bolting already). But, the indoor plants all made it outside including: Green Zebra Tomato, Golden Cherry Tomato, Basil, Tiny Red Sweet Pepper, Pak Choi, Cayenne Pepper, Thai Chili Pepper. Outside starts include Cucumber and Strawberries. The beautiful Peach Water Lily wintered in the basement and the Rosemary and Lavender that wintered inside are out now too. Going outside now are the beautiful Pink Amaryllis bulbs, Vincas. Bulbs for Freesia and Lily of the Valley are starting up outside.
